

All in One Bake Shop

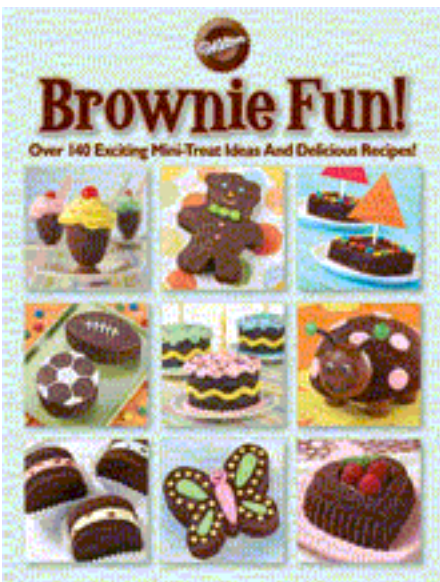

Some of my NEW favorite things...

This cake is iced with buttercream icing and then airbrushed with the Gold Sheen and Silver Sheen airbrush colors. The flowers are sprayed with Pearl Sheen. The cake was made by Cakes by Luis Holguin, Sweet Art Cakes Bakery, Upland/Pamona, CA. The metallics also come in Copper Sheen and Bronze Sheen. The other pearlescent colors include red, blue, lavender, green, pink, yellow, orange and pearl sheens. These colors can be airbrushed or painted on to hard icings. Think of the great Mardi Gras cakes that you could make with these pearl airbrush colors!

Rectangular Cutter Set

This 3 piece set is comprised of 1 1/2" x 2", 2" x 3" and 3" x 4 1/2" graduated sizes. All cutters are 2" high - making them useful for so many applications. The cutters are made of stainless steel. This is a great set to use for cookies, brownies, petit fours, chocolates, pastry or so many other uses!

Wilton Brownie Fun

Due in early next week is a whole line of new Wilton tools and ingredients specifically for brownies. There is a new idea book, stencils, colored powdered sugar, crunch ingredients, chocolate fudge icing, cutters, shaped pans and so much more. Who doesn't like brownies? Well now you can take them to a whole new level!
